Subject: Re: NJ Water Quality Standards and EPA Letter

Hi Claudine,

I just reviewed Kinder Morgan's letter to EPA dated 4/27/12, where Kinder Morgan again requests for the same extension to construct the berm. Just to be clear, Kinder Morgan submitted to EPA a BMP implementation plan on 3/19/12 where Kinder Morgan states that the berm will be constructed by 2/23/13 (one year from date of the Order), subsequently EPA responded with the attached letter saying that this schedule is acceptable. Therefore, there is no need to request the extension again.

If you have any questions let me know.

Thanks,

Kimberly McEathron

Subject: NJ Water Quality Standards and EPA Letter

Hi Claudine,

Attached is a letter from the EPA regarding Kinder Morgan's BMP plan and schedule.

Also, NJDEPs water quality standards can be found at <a href="http://www.nj.gov/dep/rules/rules/njac7\_9b.pdf">http://www.nj.gov/dep/rules/rules/njac7\_9b.pdf</a> and <a href="http://www.lexisnexis.com/njoal/">http://www.nj.gov/dep/rules/rules/njac7\_9b.pdf</a> and <a href="http://www.nj.gov/dep/rules/rules/njac7\_9b.pdf">http://www.nj.gov/dep/rules/rules/njac7\_9b.pdf</a> and <a href="http://www.nj.gov/dep/rules/njac7\_9b.pdf">http://www.nj.gov/dep/rules/njac7\_9b.pdf</a> and <a href="http://www.nj.gov/dep/rules/njac7\_9b.pdf">

Just from my general review, saline waterbodies do not have a chloride water quality standard but there is a total cyanide standard that I would expect to be applicable to stormwater runoff from a salt pile that contains cyanide as an anti-caking agent.

Kim
